

Name: \_\_\_\_\_

General Science Chemistry Warm-Up : Working with Chemical Symbols

**Working with the Chemical Symbols**

1. The mass number is the top number in the chemical symbol? True or False
2. The atomic number is the top number in the chemical symbol? True or False
3. The number of protons is equal to the \_\_\_\_\_ number.
4. The number of \_\_\_\_\_ is equal to the mass number minus the number of protons.
5. The number of electrons is equal to the number of \_\_\_\_\_ in a neutral atom.
6. The hyphenated notation is the elements name followed by a hyphen and the \_\_\_\_\_ number.

**Complete the Chart:**

	<b>Mass Number</b>	<b>Atomic Number</b>	<b>Protons</b>	<b>Neutrons</b>	<b>Electrons</b>	<b>Hyphenated Notation</b>
	39			20		
35 17						
	96	42				
				74	53
